Happy New Year! We have had an incredibly busy 2018 and wanted to provide our supporters with a review of the year:

We continued a vital part of our mission to fund salamander conservation, education and/or research initiatives through an annual grant, FCSal funded \$9,323.00 in research projects through our annual grant process. The details about these grants and updates from the researchers can be found on our website.

<https://www.fcsal.org/grants>

We celebrated the 3rd Annual Salamander Saturday. There were 32 registered Salamander Saturday events around the world. This is another critical part of FCSal's mission to disseminate information about the threats to salamanders and their

habitat. <https://www.fcsal.org/salamander-saturday>

We welcomed two new board members, Jasper Leavitt and Patrick Heney to the team. We hope to have their bios posted to the website soon. <https://www.fcsal.org/team>

Initiated a new project partnering with Emerging Wildlife Conservation Leaders (EWCL) to launch the Amphibian Report Card, an educational and collaborative tool to support amphibian conservation efforts. By crowd-sourcing expert input, the Amphibian Report Cards aim to provide both an assessment of the conservation status of U.S. Amphibian species as well as recommendations on how to contribute to their conservation. FCSal now maintains this database and hopes this can further our mission to increase awareness about salamander diversity, biology, and conservation. Follow the link to learn more or become a contributing scientist by submitting a report card <https://www.fcsal.org/amphibian-report>

We are excited for 2019! We are currently reviewing grants for our annual grant cycle and hope

to have the funds allocated and the awardees announced by 15 February.

Salamander Saturday is 4 May 2019, so please begin planning your event today!

Don't forget to let FCSal know about your event so that we can share it with our followers on social media and our website.
